

BATHROOM ACCESSORIES

HANGFAT was established in Jiangmen, China, 1994. It is a classic Chinese metal product brand with a history of 30 years.

We set product development, manufacturing and independent marketing in one, and always insist that the details are king. That is how we were born, grew and become powerful.

HANGFAT provide OEM/ODM service for our customers. Adequate machines and production lines can achieve a monthly production capacity of 800,000 pairs/set. Our product lines cover stainless steel handles, turn knobs, back plates, locksets, hinges and so on.

In the past years, HANGFAT stuck to the strict raw material inspection & acceptance standards and material distribution system. We continue to innovate production processes to reduce production spoilage, achieving better cost and quality control.

HANGFAT believes important people need more professional protection. All the important objects of protection can be "Safe, always around"!

"PIONEER ROLE" -focus, professional, leading!

OUR TEAM

Core belief: Through expertise and love, for more space to achieve hand-in-hand security system.

Mission: Important people, need more professional guarding.

Vision: "Pioneer role"-Focus, Professional, Leading.

Value: All important objects of protection can be "Safe, always around".

TAKE SAFETY
WITH YOU

DETAILS ARE KING

HANGFAT was established in Jiangmen, China, 1994. It is an classic Chinese metal product brand with a history of 30 years.

We set product development, manufacturing and independent marketing in one, and always insist that the details are king.

That is how we were born, grew and become powerful.

AUTOMATION MORE PROFESSIONAL

HANGFAT has technicians with decades of industry experience
Their production precision is close to the machine.

But for this "close",
We insist on introducing dozens of new & advanced machines.

3D automatic welding machine is highly efficient and accurate, ensuring uniform, stable and beautiful appearance of each solder joint;

Automatic polishing machine for every detail of the product has a delicate, smooth texture, and shiny;

Laser marking machine, high-speed, exquisite lines, to ensure the quality of our products and production capacity;

.....

We are always dedicated to speciality and meticulousness, perfecting every detail and making every product reliable.

QUALITY IS MARKET

HANGFAT provide OEM/ODM service for our customers. Adequate machines and production lines can achieve a monthly production capacity of 800,000 pairs/set. Our product line covers stainless steel handles, turnknobs, back plates, locksets, hinges and so on.

In the past 30 years, HANGFAT stuck to the strict raw material inspection & acceptance standards and material distribution system. We follow the principle of first-in, first-out in inventory control. 12 quality inspection processes ensure that each product undergoes rigorous testing before it can be distributed on the market.

INNOVATION LEADS FUTURE

HANGFAT continues to innovate production processes to reduce production spoilage, thereby achieving better cost and quality control. At the same time, we are constantly optimizing product design, focusing on the fit of technology and life, and presenting the natural beauty with texture.

Each of HANGFAT's products is comfortable, safe and beautiful, meeting the needs of modern life and suitable for a variety of modern home styles.

Door direction

The door direction(left/right)according to DIN 107 is determined as follows:

Visible position of the door hinges on the left: **(Din)left**

Visible position of the door hinges on the right: **(Din)right**

Lever handle direction

Lever handle aperture part pointing to the left

Lever handle aperture part pointing to the right

When selecting alternate sets with asymmetrical handles a distinction to the right/left is required. It is therefore necessary to observe the particular door direction.

Examples of asymmetric lever handles

Examples of symmetrical lever handles
